DETAILED ACTION

Examiner's Amendment

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

IN THE CLAIMS:

Claim 16: In line 1, "12" has been changed to -- 8 --.

Claim 21: In line 1, "12" has been changed to -- 8 --.

The foregoing changes ensure proper claim dependency following cancellation of claim 12.

Authorization for this Examiner's Amendment was given in a telephone interview with Richard Diefendorf on April 5, 2006.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach nor suggest a vehicle seat air supply system where, in combination with the other recited limitations, a selected assigned basic value or selected airstream parameter is further adjusted responsive to (1) vehicle

velocity, and (2) sensed external temperature. Although Bargheer et al. teaches controlling both airflow velocity and heat output responsive to detected vehicle speed and outside temperature, the reference does not teach further adjusting the selected assigned basic value or selected airstream parameter responsive to detected vehicle speed and outside temperature in combination with the other limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
